

Additional Conditions of Approval--SUP-21620

1. Unless the Applicant is participating in a federal, state or local emergency requiring the use of the applicant's amateur radio antenna, or a drill officially sponsored by the federal, state or local government, the approved amateur radio antenna shall be in a retracted position a minimum of seventy-two (72) hours each and every week, fifty-two (52) weeks a year.

For the purposes of this condition, a "week" is defined from Sunday at six a.m. until the following Sunday at six a.m. For purposes of this condition, a "retracted position" is defined as a point at which the approved amateur radio antenna is at a height no higher than 38 feet from the ground.

2. The approved amateur radio antenna is subject to a one-year review.
